Energy-Savings Presentation Thursday in Falls City

(KTNC) -- Learn tips that might help lower your energy consumption and your energy bills, during a presentation at the Falls City Library and Arts Center Thursday afternoon.

Dan Montez, an Energy Management Representative with the Omaha Public Power District, will give the presentation at 2:00 p.m.

His presentation will include information on home energy efficiencies and a demonstration on how to use a watt detector. He'll also have brochures for people to take home.

The information will show how to lower energy consumption and reduce utility bills.

The presentation is free and open to the public.
