Atchison Co Approves Ambulance Purchase

(KAIR)--The Atchison County Commission has completed the process of purchasing a new ambulance for the county's EMS service.

Commission Chair Jeff Schuele says the commission voted 3-0 Tuesday to approve the purchase of a new, 2016 model ambulance for approximately \$475,000.

Schuele says the new ambulance is expected to be delivered in approximately 2-3 months, and will replace an aging model that has been in service for about fourteen years.

The Commission also voted 3-0 to approve the purchase of two new heart monitors for an amount just over \$47,000.
