### Auburn Street Projects to Begin Soon

(KLZA)-- A number of street improvement projects are getting geared up to start in Auburn in the next few weeks.

Mayor Scott Kudrna says the hard surfacing of P and S Streets should begin the week after Memorial Day. Another big project is the hard surfacing of the trail around the Auburn Recreation Complex, which is scheduled for June.

The street projects of course are weather sensitive. Mayor Kudrrna says they will make sure the trail project does not conflict with the very busy schedule at the Rec Complex in June.
