## Cover Crops and Wildlife Habitat Research Webinar on June 22!

In 2013, the National Wildlife Federation sponsored cover crop related research focused on specific topic areas of wildlife and cover crops.

We would like to share the early results with you via a webinar:

June 22, 2015 | 12:00noon to 1:30pm eastern

### **Cover Crops and Wildlife Habitat**

#### 1. Effect of Diverse Cover Crops on Insects and Wildlife

Ray Wright, University of Missouri

#### 2. Impact of Cover Crops on Bird, Insect and Amphibian Diversity

Robert Brodman, St. Joseph's College and Daniel Perkins, Jasper County Soil and Water Conservation District

The webinar is free and open to the public.

The webinar will last 90 minutes; 60 minutes for presentations from the researchers and 30 minutes of Q&A.

To join the webinar, visit  
[practicalfarmers.org/farminars](http://practicalfarmers.org/farminars)

and click the "Join In" button, then select "Enter as a Guest."

Until then, enjoy PFI's [Farminar Archive](#), *"a trove of information on topics from production and business planning to marketing and labor management, and across agricultural enterprises."*

Please share with your colleagues and listservs.
