KS Governor Orders Flags at Half-Staff

(MSC News)---Governor Sam Brownback has order flags be flown at half-staff through Thursday to honor the victims of the Paris terrorist attacks.

In a statement Brownback said "we mourn for the victims and all those affected by these horrific acts of evil, and we offer them our prayers and condolences." "These terrorists and those that support them must be stopped."

The White House on Sunday issued a proclamation directing flags at all public buildings and military installations to be flown at half-staff to show America's support for the people of France.
