OK Earthquake Felt Locally

(MSC News)--A late Saturday morning earthquake, originating in Oklahoma, is reportedly felt across portions of the local area.

According to the U.S. Geological Survey, the quake originated northwest of Fairview, Oklahoma at 5:07 Coordinated Universal Time, or 11:07 local time.

Immediately following the 5.1 magnitude quake, local area residents took to Facebook to report what they felt. Comments came from those in areas ranging from Atchison County, Kansas to Buchanan County, Missouri, with posts indicating that items on shelves were briefly rattled, among other minor effects.

A member of the MSC Radio News staff in Falls City reports that the quake was also felt in the southeast Nebraska community.

Did you feel the earthquake? If so, leave a comment to let us know where you were when it happened.
