Public Input Needed For Atchison Health

(KAIR)--Atchison Hospital, the Atchison County Health Department and Live Well Atchison is updating the 2013 Atchison County Community Health Needs Assessment, according to a press release sent to MSC News.

The assessment update will last three months and is needed to meet final IRS regulations released January 2015. The requirements call for all non-profit hospitals to conduct a community health needs assessment and adopt an implementation strategy a least once every three years.

To do this, a short online survey has been put together.

Atchison residents are urged to take the survey by April 8 and attend the upcoming town hall meeting from 6-8 p.m., Tuesday 26th in the Atchison Hospital cafeteria.

The survey can be found [here](#).
