### Town Hall To Focus On Community Health

(KAIR)--Gauging the Atchison community's perspective on health related matters.

That's the reason behind a forthcoming Community Health Needs Assessment Town Hall meeting.

Sponsored by the Atchison Hospital, Marketing and Development Director T.C. Roberts says the session is intended to revisit the ideas formulated during a similar meeting held three years ago, and update the document compiled from the input collected at that time.

The original assessment is available on the Atchison Hospital's [website](#).

The town hall meeting is planned for Tuesday evening, from 6:00 to 7:30, at the Atchison Hospital cafeteria.

A light dinner will be provided beginning at 5:30.

Opinions and suggestions, to improve community area health, will be heard during the 90 minute meeting.
