

Auburn Council Discusses Parks

(KLZA)-- Auburn's City Council approved the final payment on the Splash Pad Project at the Rec Complex during their July meeting.

Mayor Scott Kudrna noted the final cost for the project, excluding engineering costs was \$171,045. AHR Construction was the contractor.

The Council discussed the possibility of creating an on-line reservation program to rent the R.V. pads at the Rec Complex. The hope was to ease the burden on city staff members who do the reservations over the phone. One of the issues was the \$600 annual fee it would cost for the on-line reservation service. No action was taken.

Mayor Scott Kudrna noted his disappointment with a recent vandalism of the new rest room and concession building in Legion Park. The newly remodeled facilities were completed earlier this spring.
