Nemaha County NE Hospital Recognized

**(KLZA)-- The Nemaha County Hospital in Auburn has been named a Most Wired Hospital.**

**The American Hospital Association's Health Forum released data Monday revealing the 19th Annual Health Care's Most Wired survey found Nemaha County Hospital to qualify for the designation.**

**Most Wired hospitals utilize technology to make it easier for patients and providers to interact, thus improving communication, safety and patient-provider relationships.**

**Kermit Moore, Chief Operating Officer and Chief Nursing Officer at Nemaha County Hospital says increased patient safety and higher quality of care are a direct result of the hospitals utilization of technology for patient care.**

**The survey of 698 participants representing more than 2,100 hospitals examines how organizations are leveraging technology to improve performance for value-based healthcare in various areas.**

**Nearly 40-percnet of all the hospitals in the U.S. participate in the survey.**
