MoDOT Announces Road Closure

TARKIO, Mo – Another Atchison County, Missouri road is scheduled to close for approximately two hours Friday as part of the Rock Creek wind farm project. Route M is scheduled to close Friday, July 21, from 5 a.m. to 7 a.m. The closure will be on Route M just south of 180th Street.

During the closure, motorists should seek an alternate route. All work is weather dependent and schedules may change.

As part of this project, large cranes used by the contractor will be moving across Routes C, M, N, YY and U.S. Route 136 at various times during the upcoming weeks. When the cranes are moved, it will require a full closure of the roadway. Most of these closures should take four hours or less.
