Robinson Under Boil Advisory

(KNZA)--A boil water advisories has been issued for the Brown County community of Robinson.

The Kansas Department of Health and Environment issued the advisory Friday due to water main break resulting in a loss of pressure in their system.

Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.

KDHE says customers are advised to boil the water they use for drinking or food preparation for one minute prior to use, or use bottled water, until further notice.
