Falls City sewer improvement project planned

(KLZA)--The Falls City Utility Department will be starting construction in mid-April or early May on a Wilson Street Sanitary Sewer Improvement project.

General Excavating of Lincoln will serve as the contractor.

The project will consist of installing a new sanitary sewer collection line and manholes. The work will be done in an area from the intersection of 18th and Wilson Street, extending south to the intersection of 15th and Wilson Street.

Some traffic flow issues may be caused by temporary road closures during construction.
