Boil advisory issued for Westmoreland

**(KMZA)--The Kansas Department of Health and Environment has issued a boil water advisory for the Pottawatomie County community of Westmoreland.**

**The advisory was issued Tuesday because of a line break which caused a loss of pressure. Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.**

**KDHE says customers should boil the water they use for drinking or food preparation for one minute prior to use or use bottled water.**

**The boil advisory will remain in effect until further notice.**
