

County tables decision on road supervisor position

**(KNZA)--A decision on whether the Doniphan County road supervisor position is eliminated and the county returns to having a road foreman in each of the county's three districts will have to wait.**

**County Commission Chairman Tad Geiger decided this week to table a decision until their June 18th meeting after Commissioner Jerry McKernan indicated he wanted further discussion.**

**Geiger first brought up discussion on the possible restructuring of the road department management at last week's meeting.**

**The road supervisor position, which is currently held by Bob Edie ( E-dee), was created in 2013. At that time, the road department was restructured to act as a county unit with the road supervisor overseeing all operations of the three road districts.**

**Following an executive session at this week's meeting, the Commission voted 2-1 to hire Daniel Whetstine, full-time with benefits, for the Second District road crew subject to pre-employment screening. Commissioner McKernan cast the lone no vote.**
