

Magnet scam targets Atchison County

**(KAIR)--The Atchison County Emergency Management Office is not involved with the sell of magnetic, emergency contact phone number directories.**

**That word comes in a news release issued by Atchison County Emergency Management Director Wes Lanter.**

**In the statement, Lanter said Atchison County residents, and businesses, are being called by an unspecified company asking for sponsorship money for the magnets.**

**The caller indicates that the company is working with Atchison County Emergency Services and apparently makes the claim that the magnets are to be distributed to all county residents.**

**Lanter said his office does not have any involvement with magnets, nor do City of Atchison emergency services.**

**Lanter said no money should be given to the callers and that the solicitation should be considered a scam.**
