

Services set for Madison Taliaferro

**(KNZA)--Services have been set for a Holton High School senior who died over the weekend while waiting on a second double-lung transplant.**

**According to an obituary from the Mercer Funeral Home in Holton, 18-year-old Madison Taliaferro died Saturday evening at a St. Louis hospital after a courageous long fought battle with cystic fibrosis.**

**A Celebration of Life Service will be held Friday morning at 11:00 at Holton High School, where she served as senior class vice-president.**

**A visitation and viewing will be Thursday evening from 4 to 7 at the funeral home.**

**Born with the cystic fibrosis, Madison had a continued lung function decline until she received a double lung transplant six years ago.**

**But her body recently rejected those lungs, with her lung function declining from 48 percent to 22.5 percent.**

**Doctors aren't sure what caused the rejection to occur.**
