

Pawnee City SENCA site facing uncertain future

Pawnee County Commissioners received an update on the Pawnee City, Southeast Nebraska Community Action program from Vicki McNealy.

McNealy reported noted in 2017-18 SENCA lost \$1,500 and in 2018-19 the loss was in excess of \$10-thousand with their services.

She said SENCA will be presenting to the advisory board that there will have to be utilization of the site or SENCA will have to close the site.

The latest fiscal year report shows an increase in use of the transit program for Fiscal Year 2018-19, but noted there was a 45 percent decrease in meals served from the previous year.

SENCA is also asking if there would be room in the Pawnee County Courthouse to house the transit person and outreach person for four hours per day if the sit would have to close.

There was no action by Commissioners.
