

Atchison leaders to address virus concerns

(KAIR)--As the City of Atchison and surrounding communities prepare for the inevitable COVID-19 outbreak locally, community leaders will be hosting an online Question and Answer session Friday afternoon.

That's according to a news release from the City of Atchison, which says that with "the first confirmed case now in Atchison County, community leaders want to ensure that proper information is getting to residents so everyone can do their part to help prevent the spread of COVID-19."

The session will begin at 4:00 Friday afternoon, April 3, and is "designed to address any public concerns about the impact of the virus and the response currently underway throughout the community."

The session will include Atchison City Manager Becky Berger, USD 409 Superintendent Renee Scott, Director of Atchison County Emergency Management Wes Lanter, Atchison County Health Officer Lori Forge, and Atchison Hospital Chief Medical Officer Dr. Norma Green.

The meeting will be broadcast on the City of Atchison's Facebook Page.

Questions must be submitted in advance and meeting participants will not be responding to Facebook page comments live.

Questions for one, or all, panel members can be submitted online [here](#).
