Atchison Co active COVID cases drop

(KAIR)--Active Covid-19 cases went down in Atchison County in the past week.

According to a Facebook post made by the Atchison County Health Department Monday afternoon, there are currently 33 active cases county-wide.

That represents a 10 person decrease from the 43 active cases posted by the department last Tuesday, September 8th.

As of Monday afternoon, there are still two county residents being hospitalized with the virus.

Since the pandemic began, the county has seen 299 positive cases.

There has been one Covid-19 related death.
