

County approves wind farm agreements

**(KMZA)--The Marshall County Commission has unanimously approved five agreements with NextEra Energy Resources for the proposed Irish Creek Wind Project in the southeastern portion of the county.**

**The agreements were approved when the Commission met Monday.**

**The proposed wind farm would consist of 110 turbines capable of generating 300 megawatts of power.**

**Approved were a development agreement, contribution agreement, road use agreement, decommissioning agreement and complaint resolution agreement.**

**The county still has three additional agreements to approve. They include a site plan agreement, a decommissioning bond agreement and a haul route agreement.**
