Jackson Co holds COVID vaccination clinic

(KNZA)--The Jackson County Health Department held its first drive-thru COVID-19 vaccination clinic on Thursday.

The Health Department, in a post on its Facebook page, said the event was a success—with a little over 400 people age 70 and older with underlying health conditions being vaccinated.

The Health Department recently moved to Phase 2 of the COVID-19 vaccination plan.

The Department said they plan to continue vaccinating as they receive more vaccine.

Assisting the Department on Thursday were Jackson County Emergency Management, Holton Community Hospital, Holton Family Health Clinic, Jackson Sheriff's Department, Jackson County EMS, Jackson County Road and Bridge, Jackson County Fair Association, David Hallauer and Ange Allen.
