Boil water advisory rescinded for Severance

(KNZA)--The Kansas Department of Health and Environment has rescinded a boil water advisory for Doniphan County Rural Water District # 3 customers in the town of Severance.

The advisory was issued Saturday because of a line break resulting in a loss of pressure in the system. Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.

KDHE said Wednesday that testing samples collected from Doniphan County Rural Water District #3 indicate no evidence of bacteriological contamination and all other conditions that placed the system at risk of contamination are deemed to be resolved.
