#### Johnson-Brock Board to meet again Thursday

The Johnson-Brock School Board has scheduled another special meeting for Thursday evening. The meeting will be held in the school's distance learning room beginning at 7:00 p.m.

One item is on the agenda. That is follow-up discussion of the proposed football field artificial turf project.

The board is considering whether to replace the current grass football field with an artificial surface made of recycled tires. A decision on whether to go ahead with the project could come as soon as this month's regular school board meeting.

Thursday's meeting comes on the heels of a special meeting last week to discuss the artificial turf project.
