#### Water Main Break in Atchison

(KAIR) -- A water main break Wednesday morning gave some Atchison residents limited water supply for a few hours.

The four inch break was reported just after seven in the 1300 block of Kansas Avenue.

Water Department officials say water service was likely affected around 12th & Kansas to 14th & Kansas, as well as the 1300 block of Santa Fe.

City Manager Trey Cocking said as of 11:20, all water customers should be back to normal flow.
