Atchison Students To Participate In National Faith Event

(KAIR)--Atchison High School students will be joining thousands of other high school students across the country Wednesday evening to share their faith during the annual Fields of Faith event.

This year's gathering will be the second time students from Atchison High School will participate in the event. Last years, over 100 students and supporters attended at the school's Amelia Earhart Stadium.

Fields of Faith encourages students to invite their peers to meet on the school's athletic field to hear others share their Christian faith.

This year's event will begin at 6:00 at the stadium.
