Local Fire Dangers High  
(KAIR)--Fire danger in the local area.

That word from the National Weather Service, which has issued a Red Flag Warning in effect for much of northeast Kansas and northwest Missouri.

A text message alert from Doniphan County says a Fire Weather Alert is in place from 1:00 Wednesday afternoon through Wednesday evening at 8:00.

Residents are told not to burn.

Low humidity coupled with a breezy afternoon means that outdoor burning must be avoided due to the fire danger.
