#### Humboldt Council Discussing ATV's And Golf Carts on Streets

(KLZA)-- The Humboldt City Council took no action last week on a request from Dagmar Jansen to allow the use of All Terrain vehicles and golf carts and other similar vehicle on City streets.

Additional research will be done on the topic before any action is taken.

Terry White agreed to tear down and fence built out of pallets. Since his home is in a commercially zoned area, he must get Council approval before building a fence. White will be permitted to erect another type of fence.

Ordinances concerning the keeping of exotic animals and fences were tabled since the City Attorney was not in attendance at the meeting.

A building permit was approved for a storage shed for the Faith Lutheran Church.
