

Pickup Bids Approved For Nemaha Co, NE Sheriff

**(KLZA)-- Nemaha County, Nebraska Commissioners approved the purchase of two new pickups for the Sheriffs Department during their April 5th meeting.**

**Only one bid was received. Meyer-Earp Auto Center submitted a bid of \$36,000 for each 2017 Chevy Silverado Crew Cab, 4 x 4 Special Service trucks.**

**Nebraska Public Power District representatives Jerry Whisler and Lance Davis met with the Board to discuss re-striping the paved road to the NPPD Cooper Nuclear Station near Brownville and a request to have a street light installed on the west end of the plant access entrance road.**

**Mainellei Wagner and Associates indicated the light would need to meet the new clear zone for the roadway. That will require a traffic count. Commissioners asked if NPPD would be willing to pay for the costs for engineering the street light request. That request will be taken back to NPPD.**

**The Nebraska Department of Roads will be contacted to see if they would re-stripe the road for the County.**

**Commissioners also approved a letter of agreement with Prochaska & Associates to provide Preliminary Architectural Design services for the Nemaha County Law Enforcement Center through a Design-Build Association with AHRS Construction in an amount of \$18,500.**
