

County Barn At Horton to Get Fence

**(KNZA)--A new 125-foot fence will be installed at the county barn facility in Horton.**

**Brown County Commissioner Keith Olsen informed his fellow Commissioners this week that he had received a bid of nearly \$3,500 from a company in Topeka to install the fence.**

**Olsen says the fence is being installed after Horton Mayor Tim Lentz made him aware of complaints received from Horton residents about the property.**

**The fence will be installed along the alley, on the west edge of the property located at 1725 Central Avenue.**

**Approval of the fencing was not needed from the remaining two commissioners since the cost was under \$5,000.**
