Seneca Council approves new agreement with Rainbow

**(KMZA)--The Seneca City Council has approved a new franchise agreement with Rainbow Communications for providing telecommunication services in the city.**

**The 20-year agreement, which was approved by the Council last week, calls for the company to pay the city 5 percent of gross receipts.**

**It replaces the current cable franchise agreement.**

**With Rainbow's plan to discontinue cable TV service as of June 30, the company proposed the new agreement as a way to offset the local revenue from the cable agreement.**

**The Council also approved 10-year pole attachment agreement with Rainbow. The city will be paid \$8.00 per pole per year for 622 poles. The agreement can be renegotiated after 5 years.**
