COVID-19 confirmed in Leavenworth County

(MSC News)--The number of COVID-19 cases in Kansas has jumped to 21, and among those reflected in the new numbers are the first confirmed cases in the local area.

According to a release from the Kansas Department of Health and Environment, two testing positive are in Leavenworth County.

The state's most populous county, Johnson County, has 11 cases, while Wyandotte County has 5.

Douglas, Butler, and Franklin Counties have one confirmed case each.
