

Health advisory for local lake downgraded

**(KNZA)--A health advisory, issued for a local lake due to the presence of blue-green algae, has been downgraded.**

**The Kansas Department of Health and Environment, in a release Thursday, said the advisory for the Brown State Fishing Lake, located northeast of Robinson, has been downgraded from “ warning” to “ watch” status.**

**Also under “ watch” status is Horton's Mission Lake.**

**During the watch status, KDHE recommends people avoid areas of algae accumulation, and keep pets and livestock away from the water.**

**You should clean fish well with potable water and eat the fillet portion only.**
