

Mayetta voters to decide sales tax issue

(KNZA)--Voters in the Jackson County community of Mayetta will decide the fate of a one-half percent retailers sales tax increase during a special election on Tuesday, March 9.

The Mayetta City Council voted earlier this month to place the sales tax issue on the ballot

If approved by voters, the sales tax increase would help cover the cost of extending a city sewer line to the new Dollar General Store, which is currently under construction on Mayetta's west city limits.

Revenue from the sales tax would also be used for “ general purposes” in the city, such as street maintenance and sidewalk construction and repair.

If approved by voters, Mayetta's current one percent sales tax would increase to 1.5 percent, effective April 1 of this year.

Mayetta city officials will hold a public meeting Thursday evening (February 18) at 7:00 at the Mayetta fire station to answer city residents questions about the sales tax proposal.
