

Repairs to be made to Horton Civic Center roof

**(KNZA)--Repairs will be made to the Horton Civic Center roof.**

**The Horton City Commission, in a special meeting May 23, accepted a bid from Lanter SPS Roofing Systems in the amount of \$79,450 for the project.**

**Lanter late last year repaired the southwest corner of the Civic Center roof , which was damaged during the December 15 windstorm.**

**The bid is for a new roof on the remainder of the Civic Center, two shelter houses and patching of the salt shed.**

**The city received \$67,297 from its insurance carrier for damages incurred from the windstorm, which leaves a difference of \$12,153. Commissioner Tina Nigh said she reached out to the Brown County Fair Board, and they are willing to contribute half of the portion that is not covered by insurance.**

**The roof repairs are to be completed by fair time.**
