Boil advisories rescinded for Sabetha and Morrill

(KNZA)--The Kansas Department of Health and Environment has rescinded boil water advisories for the cities of Sabetha and Morrill.

The advisories were issued Monday because of a loss of pressure in Sabetha's distribution system. Morrill purchases its water from Sabetha.

The state health agency said Wednesday that laboratory testing samples collected from the city of Sabetha indicate no evidence of bacteriological contamination and all other conditions that placed the system at risk of contamination are deemed by KDHE officials to be resolved.
