Boil water advisory rescinded for the city of Morrill

**(KNZA)--The Kansas Department of Health and Environment has rescinded a boil water advisory for the City of Morrill, located in Brown County.**

**The advisory was issued last week because of a loss of pressure in the City of Sabetha's distribution system. The City of Morrill purchases water from Sabetha.**

**KDHE says failure to maintain adequate pressure may lead to a loss of chlorine residuals and result in bacterial contamination.**

**KDHE said Tuesday that laboratory testing samples collected from the City of Morrill indicated no evidence of contamination and all other conditions that placed the system at risk are deemed resolved.**

**A boil advisory for Sabetha was rescinded last week.**
