Atchison semi driver injured in MO crash

(KNZA)--An Atchison semi driver was injured in a single-vehicle crash early Wednesday morning in central Missouri.

The Missouri State Highway Patrol says 66-year-old Frank Bosse was eastbound on Interstate-70 in Boone County when his semi-truck began to slide on the ice-covered roadway. His semi traveled off the right side of the road, entered the ditch and overturned onto its side.

Bosse was transported by ambulance to University Hospital in Columbia, Missouri, for the treatment of suspected minor injuries.

The Patrol said Bosse was wearing a seat belt when the wreck occurred shortly after 12:30 Wednesday morning.
