

Falls City woman arrested on meth-related charges

(KNZA)--A methamphetamine distribution investigation by the Richardson County Sheriff's Office leads to the arrest of a Falls City woman on multiple charges.

The Sheriff's Office said Cara Cavaness was arrested Sunday on a Richardson County warrant for eight counts—including one count each of delivery of meth within 1,000 feet of a playground and delivery of meth within 1,000 feet of a school, along with two counts each of possession of meth, possession of drug money and no drug tax stamp.

Following her arrest, Cavaness was booked into the Richardson County Jail, where she remains held on a \$25,000 bond.

During the investigation, the Sheriff's Office says deputies purchased meth utilizing confidential informants.

At the time, Cavaness was out on bond from Otoe County, Nebraska for felony possession of a controlled substance.
