I-29 bridge project in Holt County delayed (update)

(KLZA)-- The southbound Interstate 29 bridge over the Nodaway River in Holt County, Missouri, will be reduced to one-lane beginning Monday, September, 18 for a joint repair project. The project was delayed due to contractor scheduling.

Crews from Capital Paving & Construction, LLC, working with the Missouri Department of Transportation, will begin the joint repair in the right-hand driving lane with traffic narrowed to the left-hand passing lane.

Once the work in the driving lane is complete, crews will close the passing lane and shift traffic. This shift is scheduled to take place in October.

A 11.6-foot width restriction will be in place for southbound traffic. The project is expected to be complete by November.

All work is weather-permitting, and schedules are subject to change.
