

Sumner Co rollover injures Hiawatha man

(KNZA)--Hospital transport followed a single vehicle, Sumner County, Kansas roll-over crash involving a Hiawatha resident.

The Kansas Highway Patrol, in a report, says 38-year-old Anthony Juliano was southbound, in the right lane of I-35, when he lost control of his Nissan Altima, sending the car colliding with a guardrail before entering the west ditch, which caused the car to roll over.

Juliano, who was buckled up, suffered what the KHP identifies as a possible injury, as he complained of pain, and was transported for examination at Via Christi Hospital.

The wreck happened shortly before 10:30 Monday night.
