Dog shot with arrow sparks probe; reward offered

**(KAIR)--A reward is being offered as an incentive as the search to find who's responsible for the Thanksgiving Day shooting, via arrow, of a local area dog continues.**

**Stephanie and Cody Horton, late Thursday morning, took to social media to draw attention to the shooting, complete with a photo of the arrow-impaled dog. The post can be seen [here](#), but the photo could be disturbing to some readers.**

**The message accompanying the photo says the shooting occurred in the Denton/Bendena area of Doniphan County, with a later comment saying the Sheriff's Office has been notified of the crime. The Doniphan County Sheriff-Office was not available for immediate comment.**

**According to the social media post, the dog received emergency treatment from an area veterinarian, and, while in pain, is expected to survive, being treated with antibiotics and pain medication.**

**The couple has not publicly stated the amount of the offered reward.**
