More Limited Traffic on Amelia Earhart Bridge

Over the course of the next couple of days, motorists will have reduced traffic over the Amelia Earhart Bridge.

According to the Kansas Department of Transportation, on Wednesday and Thursday from 9 until 3:30 motorists will be flagged through one eleven foot wide lane of the bridge so crew can work on the bridge's deck.

KDOT says to expect delays and allow extra time for travel.

Work should be completed at some point on Thursday, weather permitting.
