New Benedictine College Building Ready for Classes

The new Ferrell Academic Center is substantially complete and faculty and staff will move in to their offices over Spring Break.

There will be an Open House on Sunday evening, March 11, from 6:00 to 8:00 p.m., so students can tour the new building and find their classrooms as well as the relocated faculty offices.

On Monday morning, March 12, classes will kick off at 8:00 a.m. and business, education, theology and philosophy classes will have moved to the new venue.
