USD 377 to Hear Strategic Plan Overview

USD 377's school board will hear an overview of strategic planning for the next several years at their next regular school board meeting.

This will take place at 6:30 Monday evening at the Administrative building in Effingham.

The board will also look to determine a location for high school graduation and potentially take action on their standing in the Delaware Valley League.

The board will also continue their discussion of progress on the mold-infested pre-school building.

The board will look to approve various student trips as well.
